DON'T MISS SOUTHERN CALIFORNIA'S PREMIERE EVENT FOR INSTRUMENTATION AND PROCESS CONTROL TECHNOLOGIES

2007 ATTENDEES BY INDUSTRY

Southern California, particularly, the area surrounding the Carson Center, has been home to a number of oil refineries and heavy industry since the 1920's. This is the perfect location to bring manufacturers, engineering firms, systems integrators and other industrial professionals together.

This one day event offers attendees free presentations, exhibits, panel discussions, networking and extensive training classes including:

- Safety Instrumented Systems
- Cut Your Annual RATA costs in Half
- Certified Control Systems Technician
- Flow Measurement from A to Z
- PLC Programming: Basic to Advanced
- SCADA and Remote Monitoring
- Wireless Standards
- Relief Valves: Basic and Advanced
- Analyzers and Sampling Systems
- Instrumentation Game Show with Prizes
